

Model 357 Scale Setup Procedure

1. Place scale platform on Plastic Plate
2. Place Basket on scale platform
3. Place compensation weight in basket
4. Plug in the remote pushbutton.
5. Turn on scale by pushing the ZERO button
6. Scale will come on with a weight of Zero and the Zero Icon will be on.

7. Press the HOLD button several time until the HOLD Icon is on.

8. Ready to weigh

Scale Weighing Procedure

1. Remove compensation weight from basket and replace with bag of fish.
2. Once the weight is stabilized the display will lock. An icon on the screen will remind the scale operator the display is in HOLD mode.
3. Remove the bag of fish. The weight on the screen will remain even after the bag is removed.
4. The scale operator will read the weight to be recorded when it is in the HOLD mode.

5. Replace the compensation weight.
6. Release the HOLD function, press the remote pushbutton.
7. The scale will be at zero and the ZERO icon will indicate when you are ready to weigh the next bag of fish.
